

Supporting the Aviation Commander in the Fight

BG William “Tim” Crosby
Program Executive Officer, Aviation

06 January 2010

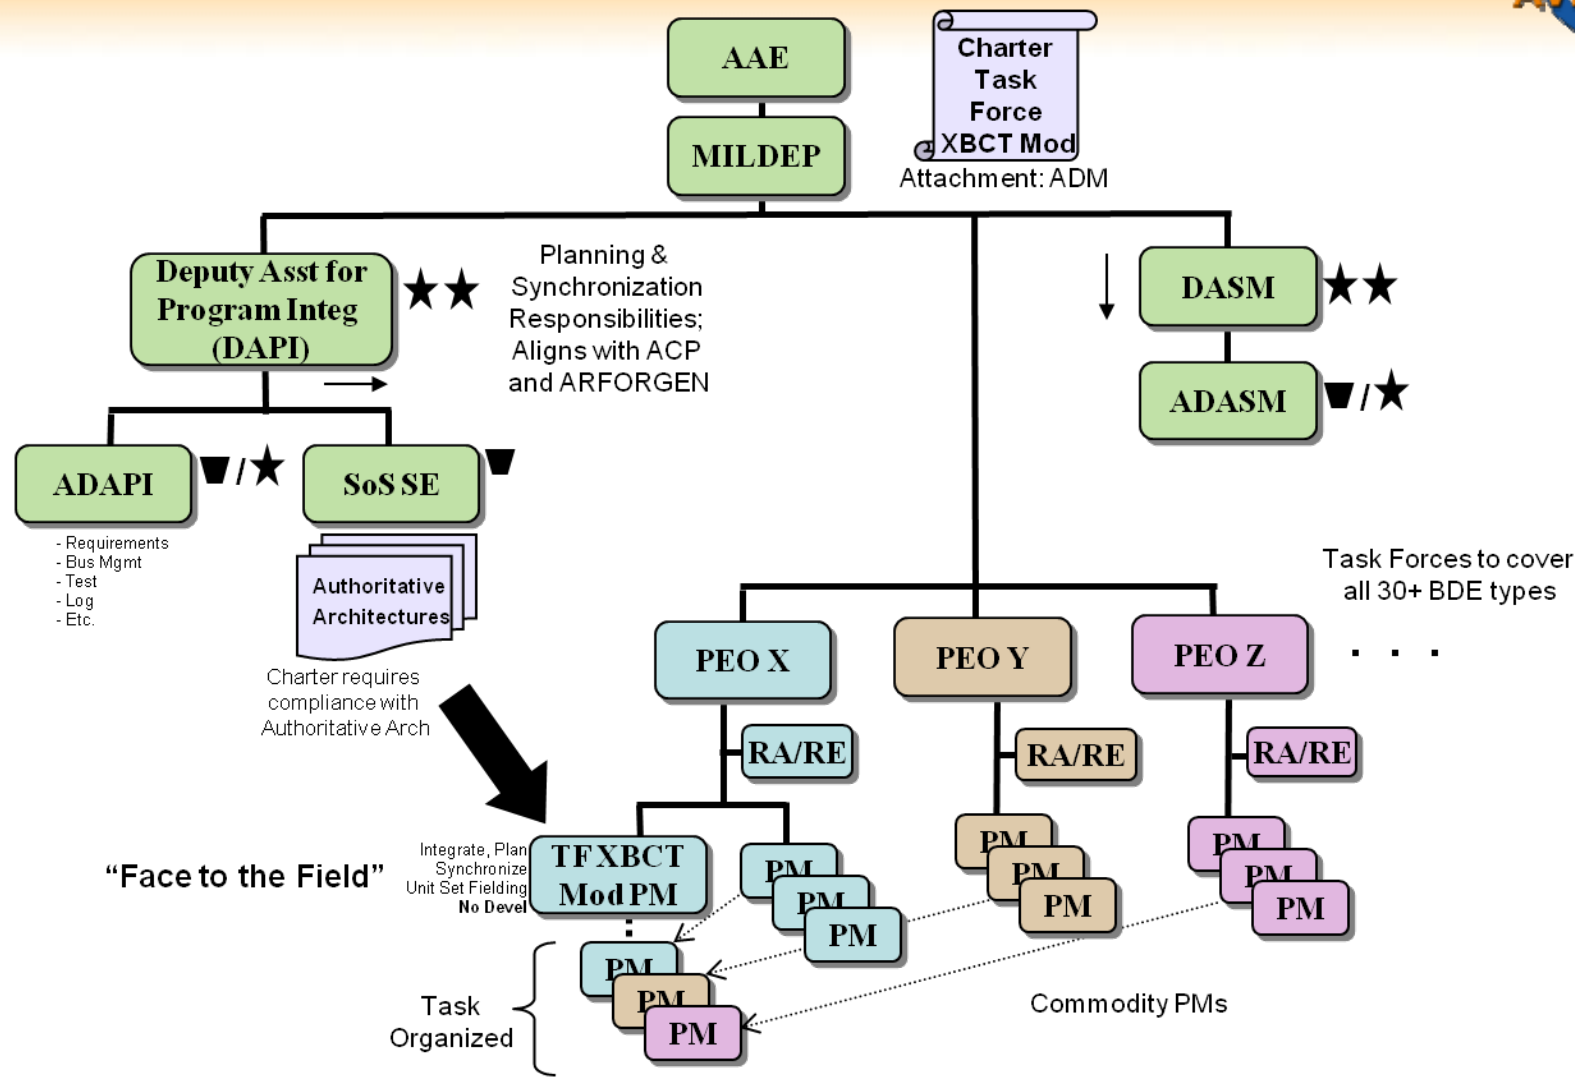

Assume Task Force Responsibility to Synchronize the Materiel Transformation and Configuration Management for the Combat Aviation Brigade. Coordinate Systems of Systems Fielding at Brigade Level.

| January 2010 | PEO AVN – AUSA Panel: Supporting the Aviation Commander in the Fight |

Proposed ASA(ALT) Management Structure

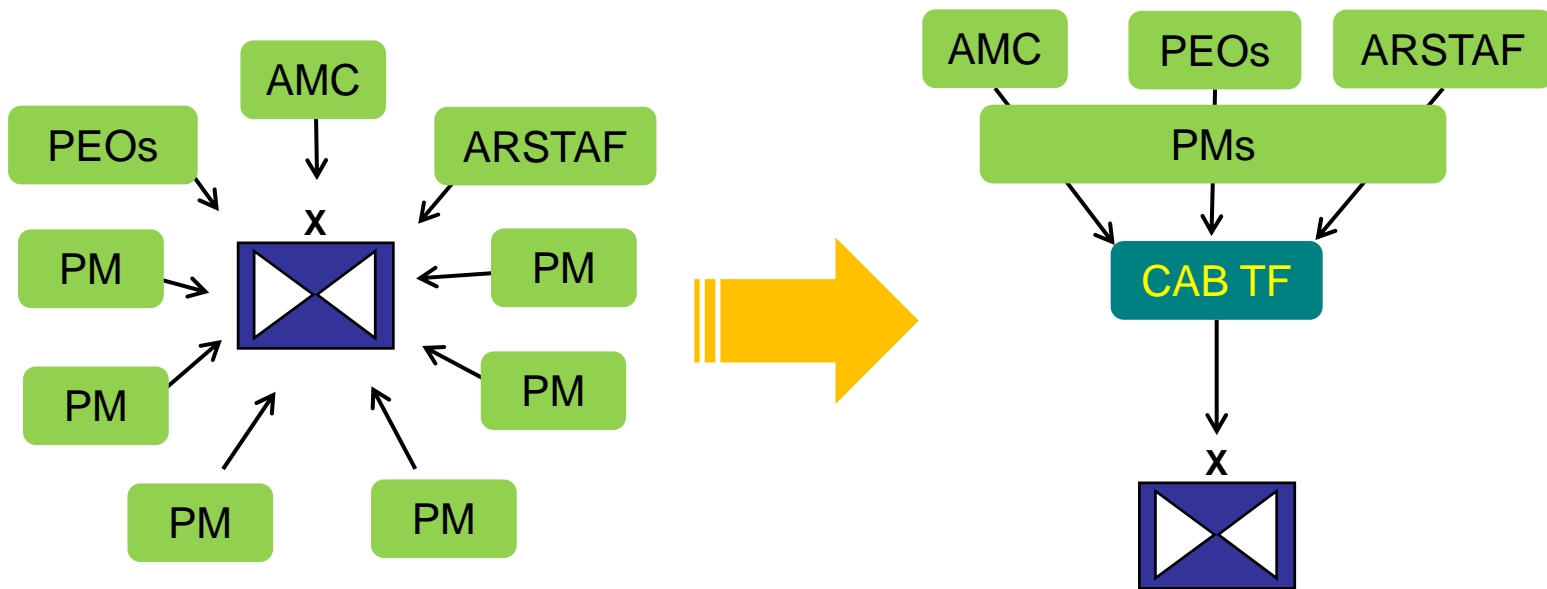

Aligns with Operational Army Construct - Organized to Deliver Integrated, Affordable, Relevant BDEs IAW ACP & ARFORGEN

Challenge

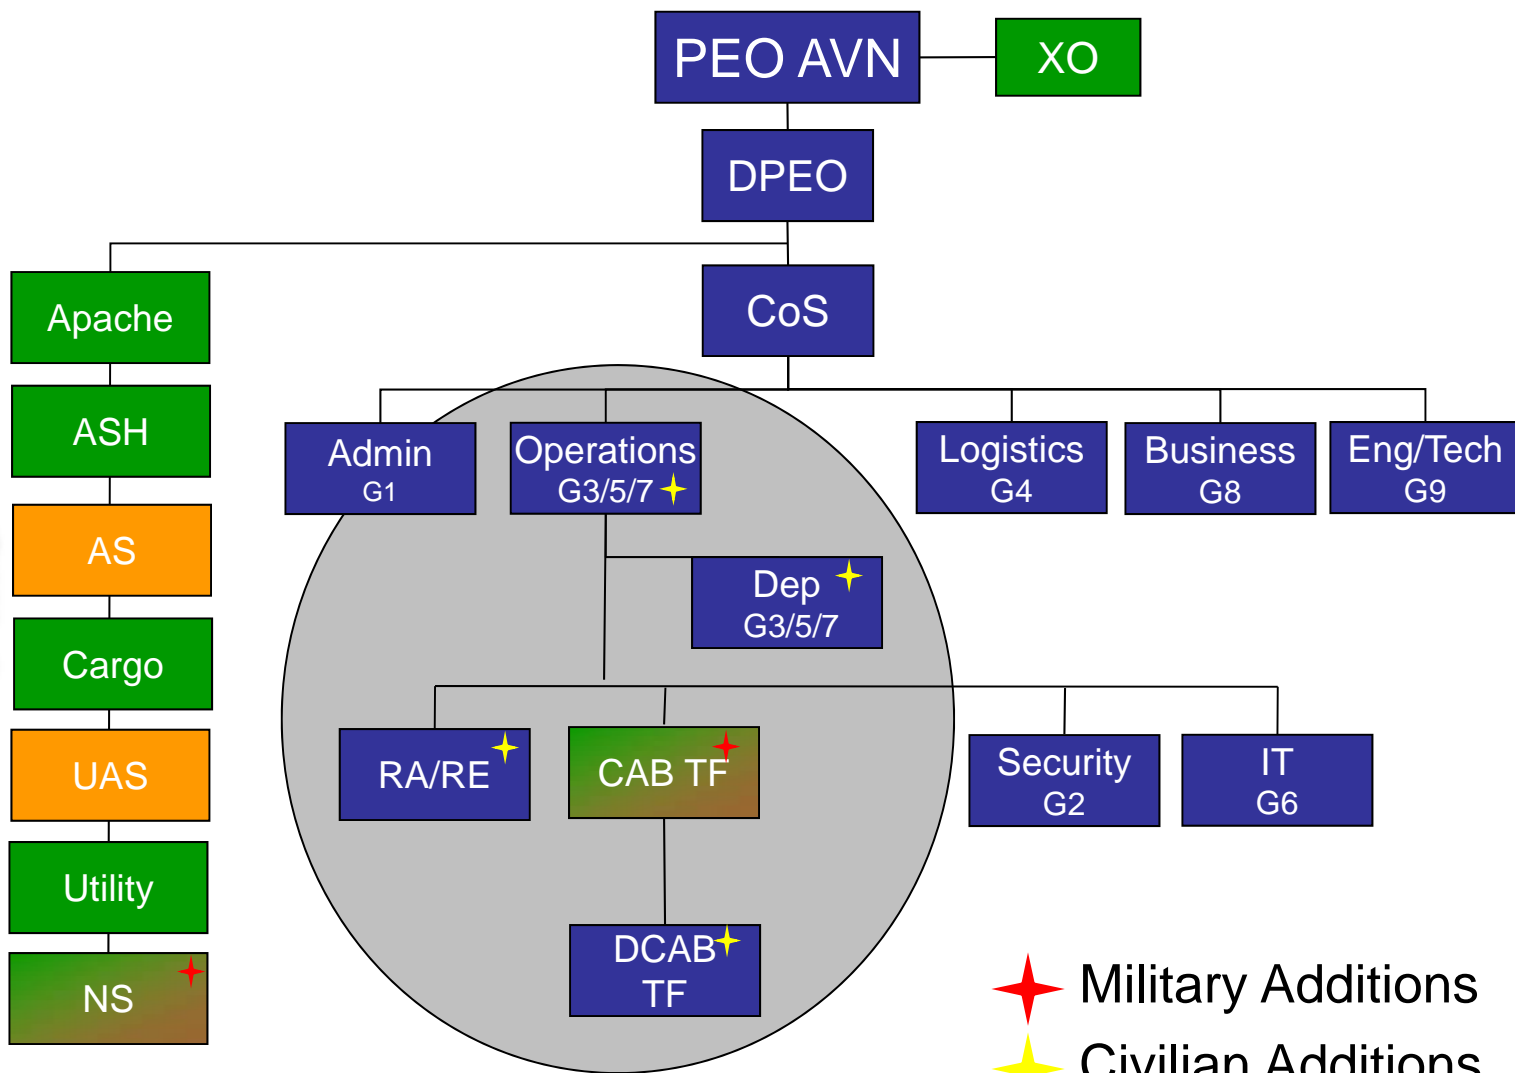

- Shift in Interaction with CABs for Acquisition/Fielding from Many-on-One to One-on-One.
- Adjusting Lines of Coordination with PEOs, AMC, ARSTAF (G3/5/7, G4, G8)

PEO AVN Management Structure

PMS

★ Military Additions
★ Civilian Additions

KEY

- MILITARY
- CIVILIAN
- BEST QUALIFIED
- NON CSL

- Aligns with LTG Thompson's Guidance
- Materiel Enterprise/Life Cycle Management – Accommodates Cradle to Grave Management
- System of Systems
 - Provides Single Acquisition POC for Field Commanders
 - Aligns with Operational Army Construct

- Concept Plan Reinforces AMC and ASA(ALT) Materiel Enterprise Methodology
- ARFORGEN Model will Continue to Prioritize Reset Units and Schedule
- AMC Organizations, in Coordination with PEO/PM, will Continue to Execute Sustainment and Reset Missions in Support of Materiel within CABs
- CAB TF will be Authorized Direct Liaison with ARSTAFF (G1, G3, G4, G8), AMC, and Army Commands
- PEO AVN will not Receive Budget Authority for other POR Systems

Who Benefits: The Army

- Enables ARFORGEN model
- Unity of Effort, Coordination, Synchronization
- Units Gain Single Acquisition Point of Entry for Procurement and Fielding
- PEO/AMC Fielding and Issue Plans Derived from Unit Training Schedules
- Protects Unit Training from Distractors
